

KF Global e-School Korean Language Education in SMU

❄ Program Outline

KF Global e-school Korean Language Program of SMU (Sookmyung Women's University) is supported by Korea Foundation (KF), a government affiliated organization.

The Program will proceed on Video-on-Demand (VOD) lectures on Korean Language with our highly prestigious faculty members of SMU who are specialized in Korean Language for students at our e-school partner university abroad.

Basically, we expect the overseas universities to grant credits (3 credits) as major or liberal arts to the students who take the Korean Language course.

VOD lectures can be used in a classroom with the Korean coordinator or the instructor who can speak Korean in a partner university. After class, students can access by an individual PC or smartphone on one's schedule once students get ID/PW. It is streamed via SMU Cyber E-lecture system.

❄️ Support for Partner University Abroad

KF will support e-School operational costs at our overseas counterparts. The program support will include honorariums for a coordinating professor at SMU's e-school partner university. The amount is depending on the role and contribution to the program.

The following are the role description of coordinator we expect.

1. She/he will open, recruit, and advertise the lecture for more students.
2. She/he will be the classes' supervisor to give further explanation on the material and opens questions and answer session on the material.
3. She/he is Korean teacher or available in both speaking and writing Korean.

❄️ Support from Sookmyung Women's University

Every course will be provided by faculty members of SMU and the lecture fee will be given by our side. Plus, the class material is published by SMU and can purchase in <http://buk.io/>.

❄️ Administrative Procedure for KF Global e-School

1. Facilities equipped with Internet-based computer classrooms.
2. Opening classes as granting credits to the students who took class.
3. Check the speed of Internet for image quality of lecture.
4. Existence of Korean instructor.
5. (For students) Buying E-book for the class material. (further instructions needed)
